 <p>Surfer</p>	 <p>Driftwood</p>	 <p>Plastic (please pick it up!)</p>	 <p>Beach grass</p>

Instructions: Look for the animals and objects on the beach or in the water. When you find one, mark off the square. The first person to get four squares in a row (horizontal, vertical, or diagonal) is the winner. **Note: Plastic takes hundreds of years to biodegrade -- the average plastic bottle takes at least 450 years to break down -- and certain types of plastic will never decompose. Plastics are the most common type of trash found in the ocean. Please pick up and throw away or recycle any garbage you see on the beach.
